(Narcotics)

REMARKS BY MISS PAGE TO CIPC ON PANEL REPORT

The CIPC Narcotics Working Group established a separate panel to review the use of classified information by the drug enforcement agencies.

The panel met over a period of months and was a useful mechanism for focusing attention on a range of issues and in establishing better understanding.

However, as a result of a number of developments, the work of the panel was overtaken by events, and major issues of two key areas are now being explored in other forums.

STAT

However, I feel it is important that the work of the panel be made a matter of record. Accordingly, the final report of the panel is being forwarded to you for your information. You should receive your copy this week.

INTERNATIONAL TERRORISM

● Terrorism Study

- I reported to you at the May meeting that the DCI had tasked us to finalize the NIO/CT input to NSDD-138 as an IC document.
- As a result we decided to hold up final approval of the terrorism study and incorporate the results of the NSDD-138 effort into the CIPC Terrorism Study.
- We have incorporated Community inputs into the NSDD-138 response. The respective initiatives are presently being ranked by the Program Managers in terms of their cost, risks and feasibility. This effort is to be completed by 2 July.
- The DCI's response to NSDD-138 has to be completed by 31 July for NSPG review.
- In an effort to develop a Community coordinated response to NSDD-138, we plan to utilize the CIPC.
- It therefore may be necessary to convene a special CIPC meeting between 2-15 July to accomplish the foregoing.
- In the meantime we will continue to revise the CIPC Terrorism Study--change the format and incorporate, as appropriate, results of the NSDD-138 effort.
